over a wide field of choice in the list of stocks.

Banking interests and large capitalists seemed to come back into the market with great confidence. The fentiment of the country, as expressed in the elections, was construed as favorable to capital and as opposed to radical readjustments of established methods or relations between capital and labor and capital employment. The outburst of speculative enthusiasm which resulted proved a surprise to the most careful observers. The closing tone of the stock market was very animated and buoyant, and last prices were close to the highest of the day. That level was the highest in the history of United States Steel, preferred, and Southern Pacific.

Bonds were firm. Total sales, par value, \$5,090,000. United States bonds were unchanged on call. Total sales of stocks to-day, 1,370,900 shares.
